

Galileo[®] Delta Mini TiltTable

Therapy with Galileo[®] for toddlers and small children.

The Galileo Delta Mini allows toddlers and small children unable to stand to benefit from the therapy success with Galileo. The Galileo Med 15 TT has an interface to control the TiltTable by the remote control and can also display the tilt angle. Med 15 TT can be removed from the TiltTable and used as a base plate on the floor. The device is compact for space requirement. The integrated dumbbell connector and the wobble function expand the range of therapy options. The Galileo Med 15 TT can be used with a Galileo Mano Dumbbell model for a total body workout. Either synchronous or separate operation of both devices is possible at any time.

TECHNICAL DATA	
Type number	
Classification	Professional
Medical product	Yes
Certificate	CE0123
Holding possibility	xxxxxx
Ext. Control panel	No
Integr. Control panel	Yes
Remote control	Yes
Frequency (from/to)	8 - 27 Hz
Amplitude (from/to)	0..+/-3.4 mm
Max. Acceleration	12.3 g
Stroke	7 mm
Footplate (l/w)	16 - 10 in
Dimensions (l/w/h)	45.2 x 17.7 x 33.8 in
Total weight	92.6 lbs.
Max. Load	110 lbs
Smart Coaching	No
Wobble function	Yes
