

Galileo[®] Med 15

Therapeutic muscle training for toddlers and small children.

Light and mobile for younger users.

Galileo Med 15 is particularly suitable for use in early childhood and infancy. The device also impresses with its low space requirement and mobility due to its light weight.

The integrated dumbbell link up and the wobble function expand the range of training options. As an option, Galileo Med 15 can be supplemented with a Galileo Mano Med Dumbbell model for a full body stimulation. Both synchronous and separate operation of both devices is possible at any time.

TECHNICAL DATA	
Type number	8N050615
Classification	Professional
Medical product	Yes
Certificate	CE0123
Holding possibility	No
Ext. Control panel	No
Integr. Control panel	Yes
Remote control	Yes
Frequency (from/to)	8 - 27 Hz
Amplitude (from/to)	0 - 3.5 mm
Max. Acceleration	10.3 g
Stroke	7 mm
Footplate (l/w)	16 - 10 in
Dimensions (l/w/h)	20.5 x 13.4 x 3.9 in
Total weight	28.2 lbs
Max. Load	110 lbs
Smart Coaching	No
Wobble function	Yes
Option and accessories	Built-in controller for Galileo Mano
