

Bundle: Galileo® Med L Sensor & Galileo® Med PT

Independent therapy units with visualization of the complete course of therapy

After individual instruction the user can train independently following the complete course of therapy on the generous display in real time. Control is provided by the intuitive user interface of the Galileo Med L Sensor control unit. Galileo's new Galileo Wobble, Galileo Smart Coaching and Galileo Smart Sense features make Galileo's vibration technology even more effective than before.

The chip version enables the billing and creation of individual therapy profiles.
